### **DETAILED ACTION**

The amendment filed on 12/16/04 has been entered. Claims 32-35 and 37-42 are pending. Claims 41-42 were indicated allowable, however, when reconsidering claims 41-42, examiner has found the non-statutory subject matter in claims 41-42. The Office regrets any inconvenience to applicant.

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 41-42 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claim 41 recites steps of applying a non-collision-resistant compression function, applying a one-way cryptographic function, and determining whether the result of applying. The steps do not perform the requested action. Claim 41 also recites a method step that needs no implementation on a computer. Thus, claim 41 does not recite any structure, i.e., machine to carry out the functions of all the recited steps. Therefore, claim 41 recite non-statutory subject matter.

Claims 32-35, 37-40 are allowable. Claims 41-42 are allowable if rewritten to overcome the 35 USC 101 issue.
